

JioMart

Meta Catalogue Ads Strategy

PRESENTED BY SHREYOSI JANA

Project Objectives

CAMPAIGN SETUP

Set up a **Meta Ads campaign** focusing on Catalogue Ads to streamline the promotion of JioMart's grocery offerings.

DRIVE SALES

Our goal is to drive **online purchases** through strategic advertising, leveraging catalogue ads to showcase products effectively.

DATA-DRIVEN TARGETING

Implementing **data-driven targeting** and placements ensures we reach the right audience, enhancing engagement and maximizing conversion opportunities.

Brand Overview

PLATFORM

JioMart is an **online grocery** and daily essentials platform, offering a wide range of products tailored for today's consumer needs.

REACH

Operating across major **Indian cities**, JioMart caters to urban households, ensuring accessibility and convenience through its digital shopping experience.

FOCUS

The brand emphasizes **affordability**, convenience, and fast delivery, making grocery shopping easier and more efficient for customers across the country.

Campaign Objective

SALES

The primary objective of this campaign is to drive **sales through catalogue ads**, optimizing for purchase conversions to enhance revenue.

CATALOGUE SALES

Utilizing dynamic product ads, the campaign aims to showcase relevant products, ensuring that customers see items tailored to their shopping habits.

CONVERSION FOCUS

By prioritizing conversions, the strategy efficiently targets high-intent shoppers, maximizing the effectiveness of the ads and driving higher purchase rates.

Sales Objective Justification

PRODUCT RELEVANCE

Sales objectives allow for automatic product display, ensuring customers see items they are interested in based on their behaviors.

HIGH INTENT

This strategy effectively targets high-intent shoppers, increasing the likelihood of conversions by focusing on customers ready to purchase.

MAXIMIZED ROAS

By maximizing return on ad spend (ROAS), this approach ensures efficient advertising investments that lead to greater sales outcomes overall.

Performance Goals (KPIs)

PRIMARY GOAL

The primary goal of the campaign is to drive **purchases**, focusing on converting ad interactions into actual sales for JioMart.

SECONDARY METRICS

Key secondary metrics will include Cost Per Purchase (CPP) and Return on Ad Spend (ROAS) to measure the effectiveness of our ads.

The screenshot displays the Google Ads campaign configuration page for 'Jio Mart Catalogue Ads'. The left sidebar shows a hierarchy: 'Jio Mart Catalogue Ads' (selected), 'Jio Mart_Sales', and 'Jio Mart_Catalogue'. The main content area is divided into sections for 'Ad set name' (Jio Mart_Sales), 'Catalogue sales' (Conversion location: Website, Performance goal: Maximise number of link clicks), 'Cost per result goal' (None), 'Value rules' (Enabled: No), and 'Attribution model' (Standard). A 'Show more settings' link is visible. On the right, a 'Campaign score' of 100 is shown, indicating a recommended setup. Below this, the 'Audience definition' section states 'Your audience is broad' and provides an estimated audience size of 118,800,000 - 139,800,000. The bottom of the interface includes a 'Close' button, a confirmation message 'All edits saved', and 'Back' and 'Next' buttons.

Target Locations

REGIONS

The campaign will focus on **Tier 1 and Tier 2 cities** in India, leveraging their growing digital adoption and online shopping trends.

MAJOR CITIES

Key cities include **Mumbai, Delhi NCR, Bengaluru**, and others, ensuring a broad reach to potential customers across various demographics.

The screenshot shows the Google Ads targeting interface for a campaign named "Jio Mart Catalogue Ads". The left sidebar lists the campaign structure: "Jio Mart Catalogue Ads" (selected), "Jio Mart_Sales", and "Jio Mart_Catalogue". The main panel displays the "Locations" targeting settings. Targeting Strategy

BROAD TARGETING

Implementing broad targeting ensures we reach a wider audience, maximizing exposure for JioMart's catalogue ads across varied customer segments.

INTEREST-BASED TARGETING

Focusing on interests like online shopping and grocery essentials allows us to engage consumers who are likely to convert successfully.

Target Demographics

AGE GROUP

Targeting individuals aged **22 to 55 years** ensures we engage a broad range of young professionals and families interested in grocery shopping.

GENDER

The campaign is designed for **all genders**, reflecting the universal need for grocery shopping, appealing to diverse household decision-makers.

The screenshot shows the Facebook Ads targeting interface for a campaign named 'Jio Mart Catalogue Ads'. The left sidebar lists the campaign structure: 'Jio Mart Catalogue Ads' (expanded), 'Jio Mart_Sales', and 'Jio Mart_Catalogue'. The main panel shows the 'Suggest an audience' section with a 'Your suggestion' tab selected. The 'Age' range is set to 22 to 55, with a note: 'We'll also show ads beyond this age range when it's likely to improve performance.' The 'Gender' is set to 'All genders'. The 'Detailed targeting' section shows 'Your suggestion' with inclusion interests: 'Online shopping (retail)', 'Household goods retailers (retail)', 'The Grocery or Discount stores (retail)'. There is a 'Save audience' button. On the right, a 'Campaign score' of 94 is displayed, along with a note about 'Advantage+ sales campaign' being off. A recommendation box suggests including all available placements to improve performance for 1 ad set, offering a '+6 points' boost. At the bottom, there is a 'Verifying your changes' section with a note about selecting 'Instagram Explore' for home placements. The bottom bar includes 'Close', 'All edits saved', 'Back', and 'Next' buttons.
